

Flosan

FRC Global offers a variety of Flosan® products, customizable for your operation and needs. Each blend is intended to optimize free-open performance under your unique conditions. While the majority of the product is used as ladle nozzle fill in ladle sliding gate systems, it has been used in E.B.T. furnace tapholes.

Features	Benefits
High purity raw materials	High free open rates
100% virgin raw materials	Consistency of performance
Blended in North America	Fast and on-time delivery
Engineered product	Special blends available when needed
Carbon level very low	Minimal carbon pickup

FRC Global is a leading supplier of refractories, electrodes, and high temperature combustion systems. We provide outstanding results for our clients within the iron, steel, and non-ferrous industries. Our company’s reputation is built by delivering high quality products made with premium raw materials.

Through the use of vast global resources, all of us at FRC Global are committed to being the value creators and problem solvers for our industry.
